MEMORANDUM FOR THE RECORD

SUBJECT : Trip Report - Perkin-Elmer, Norwalk, Connecticut
Project GUSTO

25X1 1. On 29 April 1959, Messrs. [] visited the Perkin-Elmer Corporation, Norwalk, Connecticut for purposes of a review of over-all security procedures and to conduct a physical security survey of the Post Road Building.

25X1 2. The review of security procedures was discussed with [], who is directly responsible for the security of the CHALICE and GUSTO programs within Perkin-Elmer. No major problems were encountered. However, it was decided that to prevent a tie-in between the CHALICE and GUSTO programs, new PSQ's would be submitted on the personnel involved in GUSTO even though they may have been involved in CHALICE.

25X1 3. Prior to conducting the survey of the Post Road Building, we conferred with Messrs. [] regarding the security requirements for the Post Road Building. Upon completion of the physical survey, the requirements as set forth in attachment (A) were levied. It was agreed that [], Project Real Estate representative, would make a visit to the facility for purposes of discussion regarding cost of implementing the aforementioned requirements.

25X1 4. Based on [] recommendations dollar-wise, and [] concurrence, we have approved the security requirements as set forth in attachment (A). It is recommended that implementation begin immediately.

Signed []

[]
